

MAPEI's systems for installing raised exterior floors

Raise your standards with *PP level DUO MAXI* and *PP level MINI*, MAPEI's systems of adjustable pedestals and related accessories designed for state-of-the-art installation of raised flooring.

- Simple, fast application
- Self-leveling head compensates up to 5% slope
- Locking ring converts to a fixed-head position
- Heads equipped with non-slip, noise-absorbing rubber pads
- Heads feature easily removed spacer tabs in thicknesses of 3/32", 1/8" and 5/32" (2, 3 and 4 mm)
- *PP level DUO MAXI* heights begin at 1-1/8" and can be extended with the use of extensions.
- *PP level MINI* heights range from 3/8" to 9/16".
- Heights can be fine-tuned using a special MAPEI adjustment key.
- Pedestals are 100% recyclable at the end of their service life.

PP level DUO MAXI and *PP level MINI* systems are complemented by a complete line of accessories, including edge-finishing profiles, aluminum rails for installing porcelain planks, and self-leveling heads designed for installing wood joists and decking.

A pedestal calculator is available on MAPEI's Website to help with estimating the quantity and models of pedestals needed on installation sites.

For more information, contact your MAPEI representative or visit www.mapei.us.
