MAPEI Gym Prep Sealer

Epoxy Moisture-Reduction Barrier

MAPEI Gym Prep Sealer is a two-component, 100%-solids, epoxy coating that is designed to mitigate moisture-related problems in concrete before the installation of moisture-sensitive sports flooring. MAPEI Gym Prep Sealer allows for a fast-track installation approach while eliminating moisture concerns even on green (young) concrete.

Availability – Kit: 1.75 U.S. gals. (6.62 L)

MAPEI Gym Prep Primer

Fast-Drying, Textured Primer for Sports Substrates

MAPEI Gym Prep Primer is a low-VOC, high-performance, water-based primer. It is designed to boost the performance of self-leveling underlayments over MAPEI Gym Prep Sealer and other nonporous substrates.

Availability – Jug: 2 U.S. gals. (7.57 L)

MAPEI Gym Prep Leveler

High-Performance, Self-Leveling Underlayment

MAPEI Gym Prep Leveler is an innovative, hydraulic-cement-based, self-leveling underlayment designed for the installation of high-performance sports flooring. Its rapid cure and high compressive strength allow for the fast-track installation approach needed for high-performance sports facilities.

Availability – Bag: 50 lbs. (22.7 kg)

Ultracoat Premium Base

Two-Component, High-Performance Sanding Sealer

Ultracoat Premium Base is a two-component, high-performance, water-based sanding sealer for all types of wood flooring – including exotic species – and is specifically designed to work with Ultracoat water-based finishes in high-traffic areas. Ultracoat Premium Base seals freshly sanded wood flooring and creates a base layer that isolates the finish coat from penetrating into the open wood surface. Ultracoat Premium Base is custom formulated to enable a single-coat application for most wood types.

Availability – Kit: 1 U.S. gal. (3.79 L)

Ultracoat Gym Pro

High-Performance, Cross-Linked, Water-Based, Polyurethane, Gym Wood-Flooring Finish

Ultracoat Gym Pro is a low-VOC, water-based, high-performance formula designed to provide a high-gloss finish for professional, wood sports floors. When combined with Ultracoat Gym Cross-Linker, it becomes a two-part, aziridine cross-linked finish with exceptional wear resistance.

Availability – Pail: 5 U.S. gals. (18.9 L)
