WELL 101

December 8, 2022 / 1 p.m. EDT

This presentation will provide an overall look at the WELL Building Standard, which is the first performance-based standard to focus solely on the health and wellness of building occupants.

In this presentation, we will focus on:

- An overview of the WELL Building Standard (version 2).
- An overview of green-product certifications that contribute to WELL and how MAPEI's products contribute.
- How to select products to contribute to WELL certification.

About the presenter

Brittany Storm

Brittany is the Sustainability Manager for MAPEI Corporation. Her background as a sustainable building consultant and background in construction allow her to speak to audiences about both the big picture and technical aspects of a project. Brittany is a LEED Fellow with BD+C and ID+C specialties, as well as a WELL AP and Fitwel Ambassador. In addition, she is active on many sustainability committees.
