

Choosing the best adhesive for your synthetic-turf installation

Thursday, May 30, 2024 / 1 p.m. EDT

During this Webinar, clients will gain a better understanding of MAPEI's synthetic-turf installation product line and understand how to choose the best product for their target synthetic-turf installation.

At the end of the presentation, participants will:

- Understand the basic types of synthetic turf and where they are used.
- Learn about MAPEI's synthetic-turf installation product line.
- Be able to determine the best synthetic-turf adhesive for each type of installation.

WEBINAR

Choosing the best adhesive for your synthetic-turf installation

About the presenter

Justin DeLuca

Justin is a Product Manager for MAPEI Corporation, managing MAPEI's sports-installation product line. He spent several years as a research chemist, focusing on new product development and innovation of floor-covering installation products, before moving into a product-management role. His background knowledge and experience allow Justin to guide clients to the best products and practices in sports construction as well as landscape construction.
