## MAPEI's cementitious flooring solutions

Wednesday, August 28, 2024 / 1 p.m. EDT

This presentation will provide an overview of MAPEI's *Ultratop*® systems of high-performance, polishable cementitious toppings and micro-toppings. One of those systems, *Ultratop* Terrazzo System, offers a wide variety of finished surfacing options including natural, colorized, polished and exposed aggregate.

Participants will learn about:

- The many design options that are provided by *Ultratop* systems.
- The incredible potential of custom surfacing that is provided by *Ultratop* systems, especially *Ultratop* Terrazzo System.
- The ease with which *Ultratop* systems can quickly and durably resurface a wide variety of interior surfaces in commercial, residential and industrial environments.
- The fact that all the products that are involved in *Ultratop* systems are certified as SCS Global Services Indoor Advantage Gold for VOC emissions.

### About the presenters

#### **Maurizio Luccarelli (left)**

Maurizio is an Italian native who has more than 20 years of experience in the construction industry. Actually, he has a lifetime of experience because, since 1934, the Luccarelli family has built almost 1.2 million square feet (111 484 m<sup>2</sup>) of real estate throughout Italy. In 2010, Maurizio began working with Mapei S.p.A. as a specialist in resin flooring under the Cementitious and Resin Flooring department in Milan. In 2014, he moved to the United States and founded a technical consulting firm. Maurizio joined MAPEI Corporation in 2020 as the Product Line Manager and Business Development Leader for CRS Flooring.

#### **Michael Grimes (center) and Andrew Pritt (right)**

Co-presenters Michael (covering the Western U.S.) and Andrew (covering the Eastern U.S.) have more than 30 years of experience between them in the U.S. decorative and industrial flooring industry. They joined MAPEI Corporation in 2023 as Specialists for the Cementitious and Resin Flooring Systems line, creating a strong team to support the line. Michael and Andrew bring specialized knowledge to continue developing and expanding the Cementitious and Resin Flooring Systems line in the U.S. market.
