## Where to use

**Latexplan Trade **Fast**** is used for levelling and smoothing differences in thickness of 3mm to 10mm (in one application) where rapid installation of all types of floor coverings is required on new and existing substrates.

With low odour emissions and a setting time of 30 minutes, **Latexplan Trade **Fast**** is an excellent solution for any time constrained project.

## Advantages

- Rapid installation of all types of floor coverings on both new and existing substrates.
- Suitable for high intensity/wheelchair traffic.
- **Latexplan Trade **Fast**** is suitable for smoothing sand cement screeds including **Mapecem** and **Topcem** screeds. It is also suitable for smoothing terrazzo, ceramic, porcelain tiles and natural stone (after applying a suitable primer to the surface if required).
- Suitable for use within confined or inhabited areas due to its **very low odour release**, a perfect solution when working and/or occupation must be maintained.
