Mapetherm EPS

Silancolor Basecoat &
Silancolor Tonachino

Drawing Details:

Silancolor Base Coat - coloured siloxane basecoat.

Silancolor Tonachino - Silicone resin based plaster in paste form available in different grain sizes for "rustic" effect exterior finishings, suitable for walls requiring attractive finishing, excellent water-repellence and vapour permeability.

Mapesil AC - Pure, mould-resistant, acetic, silicone sealant available in over 40 colours.

Mapetherm AR1 GG - One component cementitious mortar for bonding, levelling and reinforcing thermal-insulating panels and thermal insulation systems.

Mapetherm EPS - Extruded sintered polystyrene insulating panels for thermal insulation systems.

Mapetherm Net - Glass fibre mesh resistant to alkalis, ideal for reinforcing skim coats for repairing façades and installing Mapetherm thermal insulation systems.
