## MAPEPROOF SWELL

Single component hydro-expansive paste supplied in cartridges, used to waterproof and seal cracks in concrete.

**Mapeproof Swell** has been specifically developed to form flexible, waterproof seals in cracked reinforced concrete or in prefabricated elements with infiltration of water.

**Some application examples are:**

- sealing pipework which passes through concrete
- sealing spacers in formwork
- sealing cold joints in reinforced concrete structures
- sealing where water seeps through cracks in reinforced concrete structures
- bonding various types of joints
- sealing lights and drainage outlets in swimming pools and tanks
- sealing construction joints in concrete walls
- available in 320ml cartridges - 6 per box
- light grey in colour

**RESILIENT PRODUCT TRAINING IN BRISBANE HEAD OFFICE**

Mapei Technical and Sales staff from all states recently visited Head Office for a three day training programme on all products associated with resilient and timber flooring.

In upcoming months Mapei will be releasing some exciting and innovative products into the Australian market and we need to be sure that all sales staff are fully trained. All staff were involved in the practical application of all products to ensure that they are more than proficient to pass on any technical and practical information to our customers and contractors.

Mapei are planning more Product Training Seminars in the coming months to cover all aspects of range that covers more than 800 products here in Australia.

## REALTA INTERNATIONAL MAGAZINE

### REALTA INTERNATIONAL MAGAZINE NO. 61

The latest edition is now available to read online. Interesting reading!
