**MAPEI STAND AT THE RECENT CERSAIE EXHIBITION IN BOLOGNA, ITALY**

MAPEI staff from around the world were present at the recent Cersaie Exhibition in Bologna, Italy.

Maepi Australia staff welcomed over 58 Australian clients who visited the stand where they were given a guided tour. Clients enjoyed live product demonstrations as well as meetings with our Italian Product Managers who were more than happy to make themselves available.

With more than 900 exhibitors from almost 35 countries, "Cersaie" in Bologna belongs to the most important trade fairs of the world. Of course, the latest products and trends on the ceramic and sanitary sector are shown there. Yet this event represents much more than any usual industrial fair. Architects and designers create an artistic image of "Cersaie".

On the whole the organisers welcomed about 945 exhibitors from 38 countries and 100985 visitors from 153 countries.
