

# MAPEFILL ZERO

Expansive fluid mortar for anchoring

# Mapefill ZERO

## DESCRIPTION

### Fluid mortar with positive internal tension

Pre-blended powdered mortar composed of high-strength cement, graded aggregates and special admixtures. The product has excellent fatigue behaviour, which gives repaired structures a high level of resistance to cracking, including when subject to dynamic loads induced during normal service conditions. Suitable for precision anchoring of machinery or metallic structures and repairing damaged structures.

## CO<sub>2</sub> FULLY OFFSET PRODUCT

CO<sub>2</sub> emissions measured throughout the life cycle of products from the **ZERO Line** in 2024 using Life Cycle Assessment (LCA) methodology, verified and certified with EPDs, have been offset through the acquisition of certified carbon credits in support of forestry protection projects.

A commitment to the planet, to people and to biodiversity. For more details on how emissions are calculated and on climate mitigation projects financed through certified carbon credits, visit the webpage [ZERO.mapei.com](https://ZERO.mapei.com).

*Building a **SUSTAINABLE** future together*

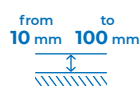

## WHERE TO USE

Application procedure

Pot life

Thickness

## CHARACTERISTICS

High fluidity

Excellent adhesion

Resistance to dynamic/mechanical stress

## CERTIFICATIONS

**PACKAGING**  
25 kg bag

**CONSUMPTION**  
2 kg/dm<sup>3</sup> of cavity to be filled
