

MAPEI MARINE AT CRUISE SHIP INTERIORS EXPO 2021

From Wednesday 1st to Thursday 2nd at London ExCel

Milan, 29th November 2021 – Mapei Marine will exhibit at Cruise Ship Interiors Expo in London from Wednesday 1st to Thursday 2nd – on stand 622. The Mapei Group's subsidiary devoted to the ship building industry, will showcase its wide range of products and solutions with particularly stunning effects dedicated to the high-end cruise building industry. Thanks to intense work carried out in the Mapei Research & Development laboratories, Mapei Marine has managed to combine beauty and functionality to propose innovative solutions with cutting-edge technology, suitable for the interiors of ships.

And here are the solutions on display at Cruise Ship Interiors Expo:

MAPEDECK TEAK EVOLUTION: a self-levelling resin providing a realistic wood-effect finish with all the advantages of synthetic teak-deck coverings in terms of costs and maintenance. It features excellent bonding and mechanical strength.

MAPEDECK TERRAZZO: a system to create "terrazzo-alla-Veneziana" floorings, in such high demand to embellish interior settings. Applied over special epoxy base materials supplied by Mapei Marine to level off the installation surface, it has excellent resistance to wear and is easy to clean using products from the Mapei Ultracare line.

MAPEDECK MIRUM, a two-component, aliphatic polyurethane resin-based formulation developed in the Mapei R&D laboratories, is used as a final coating to form highly attractive finishes on internal and external horizontal and vertical surfaces on ships and yachts. It is available in an infinite array of textured finishes: from the most minimal to the most marbled textures.

MAPEDECK MONODESIGN is ideal for creating decorative coatings with a marbled effect on internal floors and walls. Extremely versatile, very easy to apply and non-yellowing, it has excellent resistance to abrasion which makes it suitable for use on floors subjected to intense foot traffic. It is available in a wide range of colours which may be further enhanced by using Mapedeck Finish HDT, the ideal product to create decorative finishes of the highest quality.

Mapei

Founded in 1937 in Milan, Mapei is one of the world's leading producers of chemical products for use in the building industry and has taken part in the construction of the most important architectural works and infrastructure projects at a global level. With 89 subsidiaries located in 57 countries and 81 production facilities operating in 36 countries, the Group has more than 10,600 employees around the world. In 2020, Mapei Group registered a consolidated turnover of 2.8 billion Euros. The foundations for the success of the company are specialisation, internationalisation, research & development and sustainability.
