

# Products for maintaining the beauty of wooden flooring

**PRODUCTS FOR WOODEN FLOORING**

# SPRAY MOP

## LIGHT AND SLIM WITH AN INNOVATIVE DESIGN

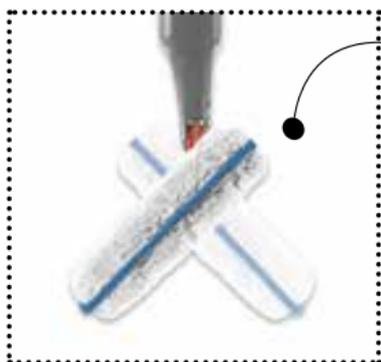

Slim and light with an innovative design, specifically developed for cleaning domestic areas quickly and efficiently. You can use it for daily cleaning operations on wooden floors with specific detergent, or for extra maintenance work to remove old wax and apply new wax.

The cleaning solution is fed directly from the support to guarantee an accurate spread over the whole floor.

**Mapei  
Spray Mop**

MAPEI

Double-sided microfiber cloth.  
The special hinged joint on the head means you can use both sides of the cloth.  
When cleaning the floor use one side of the cloth for cleaning and the other side for drying.  
When waxing the floor use one side of the cloth to apply the wax and the other side to spread it out evenly over the floor.

Easy-to-remove graduated tank.

The spray lever is located at the top of the handle for maximum comfort and to prevent accidental spraying.

Its slim form means it takes up very little space when stored away.

Special microfiber cloth made up of millions of positively charged microscopic fibres that trap and hold all the particles of negatively charged dirt and dust. Its special structure means it can also absorb and hold twice as much liquid as a normal cotton cloth.

Thanks to the size of the cloth you can apply pressure over the entire surface, making cleaning and waxing operations much easier.

# Ultracoat Cleaner

## Hygienising detergent for wooden floors

- For daily cleaning of wooden floors.
- Used neat it removes the most stubborn dirt.
- Diluted with water it can be used in areas where maximum hygiene is a must.
- Gets rid of dirt from wood without removing the finishing treatments.
