

INCLUDED PRODUCTS

Featured systems:

- Mapefloor CPU HD
- Mapefloor CPU RT
- Mapefloor CPU MF
- Mapefloor EP SL S
- Mapefloor EP Decor S
- Rescryn BC
- Rescryn TR

For additional information, please refer to the latest version of system and technical data sheet for each product.

PRODUCER

Mapei AS

WASTE MANAGEMENT

Non-cured product is classified as hazardous waste. Cured or dried product should be disposed of in the same manner as other construction waste. Contact your local waste management facility.

ENVIRONMENTAL INFORMATION

See safety datasheet for the featured product.

MAINTENANCE

Surfaces should be cleaned when required. All final treatment will with time be subject to abrasion, reduction of gloss etc. dependent on the use. Changes of colours may occur. Damages should be repaired as soon as possible.

CLEANING

Floor can be cleaned either by hand, with pressure cleaners or machine dependent on the construction. Use **Mapefloor Cleaner ED** (1- 3 % in water) as a cleaning agent. Other weak alkaline cleaning agents may be used but we recommend cleaning a trial area to evaluate whether the agent is suitable for the flooring. If using a machine soft pads/brushes should be used to avoid abrasion.

TEMPERATURE RESISTANCE

Temperature resistance for each system is dependent on thickness of the installed system and if the system is exposed to high temperature over short or long periods of time. Refer to each systems technical datasheet to find maximum working temperature for each system.

REPAIRING DAMAGES

Any damage should always be repaired using the same material and system as originally used. Always contact the contractor before doing repairs.
