Mapecoat TNS Remove

Removable multi-layered acrylic resin-based system in water dispersion used in combination with fibre-reinforced pvc mat to create indoor playing surfaces suitable for professional-level tennis and multi-purpose playing surfaces.

Mapecoat TNS Remove is a removable, multi-layered, acrylic resin-based system in water dispersion with selected fillers used in combination with fibre-reinforced PVC mat to create indoor playing surfaces suitable for professional-level tennis and multi-purpose playing surfaces with high resistance to wear.

The application of **Mapecoat TNS Remove** allows playing surfaces to be formed with excellent playing comfort and excellent performance characteristics, such as regular bounce of the ball, quick, safe changes in direction and an excellent compromise between balance and slide for players.

Rolling out the fibre-reinforced PVC mat

Applying the adhesive **Ultrabond Eco Tack LVT**

Sealing the PVC sheets with the sealant **Mapeflex AC4**

Applying the acrylic coloured coating **Mapecoat TNS Finish**
