### FLAKES FOR EXCELLENT SEAMLESS FLOOR & WALL DECORATIVE COATING

MapeFlakes SP is a range of decorative coloured acrylic flakes incorporated in the Mapefloor epoxy and polyurethane floor and wall systems to provide a decorative and textured alternative to conventional floor and wall coverings.

MapeFlakes SP are colourful, tough, low-maintenance, seamless, durable coating system components for floor, wall, and other surfaces for commercial, institutional and domestic areas of application.

- Seamless surface;
- Water-resistant;
- High resistance to wearing, great for traffic areas;
- Available in four flake sizes: micro, small, large, and extra large.
