

MAPEGROUT ANCHOR & REPAIR

MAPEGROUT ANCHOR & REPAIR

REPAIR WORKS

Fibre-reinforced, compensated-shrinkage mortar for repairing concrete and anchoring metal structures by pouring the mortar into specially prepared areas.

.....

WHERE TO USE

- Repairing **badly damaged structures** that require the use of free-flowing mortar.
- Structural reintegration of **pillars, beams and reinforced concrete walls** by pouring the mortar into formwork.
- Reintegrating **floor slabs after removing damaged areas by scarifying**.
- Repairing **concrete floors**.
- Reintegrating **concrete steps**.

ANCORING WORKS

When mixed with water, **Mapegrout Anchor & Repair** forms hi-flow mortar applied in a single layer at a thickness of 5 cm, after having prepared the substrate.

.....

WHERE TO USE

- Anchoring **metal structures**.
- Filling **rigid joints between concrete elements**.
- Footings** for masonry.
- Anchoring **machine tools** by casting the mortar below the machine base.
- Anchoring **metal structures**.
