

Ultratop[®] and *Ultratop PC*

Concrete Toppings

Cementitious
Flooring Systems

Ultratop and **Ultratop PC** Concrete Topping Systems

MAPEI's *Ultratop* system of toppings for cementitious floors provides top-line quality and endurance for every need: industrial, commercial, or residential. The system is made up of select primers, *Ultratop* fast-track self-levelling, self-curing topping, and a variety of *Mapefloor*™ *Finish* coatings, to protect the floor and to obtain a variety of aesthetic effects on the surface.

Available in white or grey, *Ultratop* may be treated with either transparent or colored finishing products; or with products from the *Mapefloor* range. The *Mapefloor Finish* products provide extra resilience, improving the floor's resistance to chemicals and abrasion. If used to create decorative floors in environments such as homes, showrooms, shops, etc., *Ultratop PC* may be dry/wet polished to leave an effect that is similar to natural stones, or it may be mixed with natural aggregates.

Mapefloor Finish coatings:

- *Mapefloor Finish 53 W/L* – gloss
- *Mapefloor Finish 54 W/S* – semi-gloss
- *Mapefloor Finish 58 W* – matte
- *Mapefloor Finish 630*

Natural effect Concrete Topping Systems

Ultratop with *Mapefloor Finish 58 W* and *Ultratop* with *Mapefloor Finish 630*

Ultratop is a self-leveling, self-curing topping that is specially formulated for fast-track resurfacing of horizontal wear surfaces.

- 1 Concrete
- 2 *Primer SN*
- 3 *Ultratop*
- 4 *Mapefloor Finish 630*
- 5 *Mapefloor Finish 58 W**

Recommended for:

- Interior use only
- Suitable for environments with intermittent water exposure
- Retail and residential applications

Features and Benefits:

- *Ultratop* can be polished
- Fluid self-leveler; easily installed from 1/4" to 2" (6 mm to 5 cm) neat
- Quickly hardens within 2 to 3 hours
- High compressive strength
- Ready to accept stains, sealers or coatings within 24 hours
- Available in white or natural gray

*Mapefloor Finish 58 W provides a matte finish. For semi-gloss finish, select Mapefloor Finish 54 W/S.
For a gloss finish, select Mapefloor Finish 53 W/L.

Aliphatic Polyurethane Coatings for Concrete Topping Systems _____

Mapecfloor Finish two-component, aliphatic polyurethane coatings in water dispersion with clear or colored finishes. For high-performance finishes on general-service resinous flooring products and *Ultratop* systems.

High Performance Finish –
Mapecfloor Finish 630

High-Performance Coating for Concrete Topping Systems

Mapecfloor Finish 630 is a two-component, protective, acrylic filming agent in water dispersion for floors made from concrete and *Ultratop* systems. It provides good UV resistance and a high-performance finish.

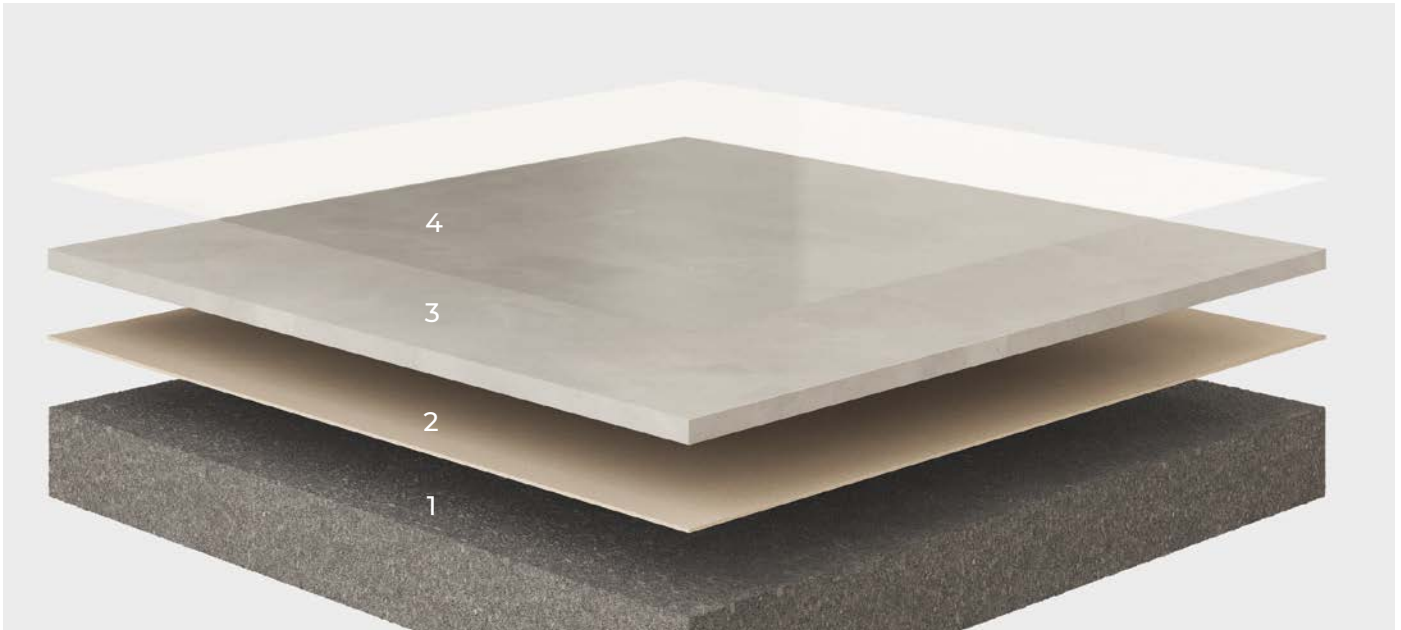

High Performance Finish –
Mapecrete Hard LI

Lithium Silicate **Densifier** and **Sealer** for **Concrete**

Mapecrete Hard LI is a water-based, VOC-free, lithium silicate solution used to densify, seal and dustproof horizontal, hard-troweled concrete surfaces. It penetrates the concrete surface, chemically reacts with the free lime, and produces a dense, hard matrix within the concrete and a more durable surface on top.

Polished effect Concrete Topping Systems

Ultratop PC with ***Mapecrete™ Hard LI***

Ultratop PC is a polishable self-leveling, cementitious topping. *Ultratop PC* is engineered to provide a thin resurfacing material that is extremely dense, hard and durable.

- 1 Concrete
- 2 ***Primer SN™***
- 3 ***Ultratop PC***
- 4 ***Mapecrete Hard LI***

Recommended for:

- Interior use only
- Suitable for environments with intermittent water exposure
- Suitable for light industrial floors and commercial
- Retail and residential applications

Features and Benefits:

- Easily installed from 3/8" to 2" (10 mm to 5 cm) neat and up to 5" (12.5 cm) extended
- Polishable in as soon as 24 hours
- Suitable for both new (28-day cured) and existing concrete
- Will accept light vehicular traffic in commercial, light industrial, and residential applications
- Available in natural gray
