

Concrete Restoration Products for Precast

MAPEI offers a variety of solutions including fast-setting, fiber-reinforced, corrosion protection, shrinkage-compensated, sulfate-resistant, silica-fume-modified and fine/smooth textures for precast elements that require an aesthetic finish.

For more information, visit www.mapei.ca or contact your local MAPEI representative.

CONCRETE REPAIR MORTARS

Planitop® X

Hand-packed repair mortar that can easily be shaved to match surrounding contours

Planitop XS

Extended-working-time, hand-packed repair mortar that can easily be shaved to match surrounding contours

Planitop 12 SR

Sulfate-resistant repair mortar with a long working time for vertical, overhead and horizontal use

Planitop 11

Pre-extended concrete repair mortar for full-depth repairs

Planitop 11 SCC

Pre-extended self-consolidating concrete

Planitop 200

Cement-based skimcoating mortar for concrete

WATERPROOFING

Planiseal® 88

Cement-based, waterproofing coating for positive and negative sides

PATCHING AND SKIMCOATING COMPOUND

Tilt Finish™

Skimcoating mortar for tilt-wall panels and vertical precast elements

EPOXY ADHESIVES

Epojet™ and Epojet LV

Low-viscosity, epoxy injection resins for repairing cracks in cured concrete

Planibond® AE

Gel-viscosity epoxy adhesive

Planibond AE Fast

Fast-setting, gel-viscosity epoxy adhesive

CONSTRUCTION GROUTS

Planigrout® 712

Nonshrink, cement-based grout for grouting precast concrete

Planigrout 350

Three-part epoxy grout for deep pours, valves and lift gates

EVAPORATION RETARDANT

Mapecrete™ Film

Evaporation retardant on exposed, formed concrete

COATINGS AND PRIMER

Elastocolor® Primer AR

Alkali-resistant primer for green concrete

Elastocolor Coat

Elastomeric, breathable smooth finish coating

Elastocolor Texture

Elastomeric, textured, breathable coating
