

# MapeLevel EasyWDG System

## Tile Lippage-Control, Edge-Leveling System for Floors and Walls

### DESCRIPTION

**MapeLevel EasyWDG System** provides greater quality and consistency in tile finishes by reducing the effects caused by slight variations in substrates and tiles. Unlike most of the lippage-control systems currently available on the market, *MapeLevel EasyWDG System* has been designed to be applied entirely by hand. The ergonomic shape of the *MapeLevel EasyWDG wedge* allows it to be inserted smoothly and quickly into the *MapeLevel EasyWDG Spacer M* clips. *MapeLevel EasyWDG Pliers* are available where the use of a tool is preferred. Quick and easy to apply, the wedge and clips can prevent tile lippage and promote a flat tile surface.

### FEATURES AND BENEFITS

- *MapeLevel EasyWDG System* can be installed entirely by hand for a faster installation.
- The *MapeLevel EasyWDG wedge* is made of recycled plastic (polypropylene) and is reusable.
- *MapeLevel EasyWDG Spacer M* recyclable breakaway clips, made from high-density polyethylene, are available in sizes from 1/16" to 3/16" (1.5 to 5 mm) wide.
- The system is convenient and easy to use.
- The system provides greater quality in the finished tile installation.
- Thanks to thin milling of the wedge surface, the *MapeLevel EasyWDG wedge* increases precision during the leveling of tile edges. This also enables an easier insertion of the wedge inside the clips.
- Easy wedge removal allows for the cleaning of fresh mortar from around the clips.
