## MapeLevel™ ProWDG System

Professional, Tile Lippage-Control, Edge-Leveling System for Floors and Walls

MapeLevel ProWDG System provides greater quality and consistency in tile finishes by reducing the effects caused by slight variations in substrates and tiles. Quick and easy to apply, its two simple elements (wedges and spacer clips) can prevent tile lippage and promote a flat tile installation. MapeLevel ProWDG System is a lippage-control system for tiles of various thicknesses and sizes, especially for large-format tiles. Its wedges can be used with ceramic and stone tiles from 1/8" to 3/4" (3 to 20 mm) in thickness.

Product		Size (inches)	Size (mm)	Color	Packaging	Product Code
	<b>MapeLevel ProWDG leveling wedges</b>			Blue	Box: 14 bags, 100 pcs. per bag	8117214

		3/32"	2	White		8116140
		1/8"	3	White		8116240
		3/16"	5	White		8116340
	<b>MapeLevel EasyWDG Pliers</b>				Box: 15 pliers	8100315

## MapeLevel™ EasyWDG System

MapeLevel EasyWDG System provides greater quality and consistency in tile finishes by reducing the effects caused by slight variations in substrates and tiles. Unlike most of the lippage-control systems currently available on the market, MapeLevel EasyWDG System has been designed to be applied entirely by hand. The ergonomic shape of the MapeLevel EasyWDG wedge allows it to be inserted smoothly and quickly into the MapeLevel EasyWDG Spacer M clips. MapeLevel EasyWDG Pliers are available where the use of a tool is preferred. Quick and easy to apply, the wedge and clips can prevent tile lippage and promote a flat tile surface.

### FEATURES AND BENEFITS

- MapeLevel EasyWDG System can be installed entirely by hand for a faster installation.
- The MapeLevel EasyWDG wedge is made of recycled plastic (polypropylene) and is reusable.
- MapeLevel EasyWDG Spacer M recyclable breakaway clips, made from high-density polyethylene, are available in sizes from 1/16" to 3/16" (1.5 to 5 mm) wide.
- The system is convenient and easy to use.
- The system provides greater quality in the finished tile installation.
- Thanks to thin milling of the wedge surface, the MapeLevel EasyWDG wedge increases precision during the leveling of tile edges. This also enables an easier insertion of the wedge inside the clips.
- Easy wedge removal allows for the cleaning of fresh mortar from around the clips.

\* A grout joint of 1/32" (1 mm) is not approved by MAPEI. MAPEI does not endorse the 1/32" (1 mm) spacer, nor does MAPEI recommend any of its grout products in joints of this width, but offers this spacer size for the convenience of its customers. Customers and contractors using this size of tile spacer do so at their own risk. For installations using this size of tile spacer, MAPEI disclaims any and all warranties of any kind express or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose.

## MapeLevel™ Easy System

MapeLevel Easy System offers combinations of caps and threaded spacers for lippage control in ceramic and stone tile installations from 1/8" to 3/4" (3 to 21 mm) in thickness. MapeLevel Easy System can eliminate the effects caused by slight variations in substrates and tiles, promoting a flat tile surface. MapeLevel Easy Cap edge-leveling caps can be applied easily and quickly. MapeLevel EasyClick Cap squeeze-button caps offer an even faster application, with a built-in scratch guard. Both types of caps are reusable and feature an open-view design that allows the installer to check for proper lippage control.

### FEATURES AND BENEFITS

- Fast application
- Reusable caps
- Caps with open-view design
- Caps can be easily separated from the spacer fragments for reuse
- Spacer fragments are recyclable
