A WORLDWIDE LEADER

Originally established in 1937, today MAPEI is a privately owned global corporation headquartered in Milan, Italy, with 96 subsidiaries in 57 countries and 93 plants in 36 nations. The company specializes in manufacturing chemical products for building, including waterproofing products, specialty mortars and admixtures for concrete, products to restore historic buildings, and decorative and protective coatings for concrete surfaces. In addition, MAPEI is the world leader in the manufacturing of mortars, grouts, adhesives and complementary products for installing all types of floor and wall coverings. MAPEI Corporation, the division responsible for supporting the North American markets, is based in Deerfield Beach, Florida, and employs over 1,500 team members – ranging from Manufacturing and R&D to Technical Services and Sales. The Canadian subsidiary MAPEI Inc. supports those efforts with about 360 additional employees.

SUPERIOR PRODUCTS

MAPEI produces the most innovative products for the construction market. More than 7,700 products globally (adhesives, sealants, mortars, admixtures, latex, etc.) are manufactured in MAPEI's plants, which produce the world's most complete range of building products. Diversified, high-quality chemical products – from powdered adhesives, to liquid and paste products, to polymers – are created to meet the needs of more than 75,000 customers around the world.

QUALITY CONTROL

MAPEI is an ISO 9001:2015 certified company. Its products are produced according to exacting standards, strictly adhering to process and procedural guidelines with documented compliance. This rigid production format is vigilantly followed to ensure that every product is produced uniformly from batch to batch.

BEST-BACKED WARRANTY PROGRAM

To bring it all together, MAPEI complements the industry's best products with simple, easy-to-understand requirements for a variety of warranty options.

RESEARCH & DEVELOPMENT

We have always been highly committed to this sector. Our research scientists work within a global network comprising 35 centers, with our Corporate Research Center in Milan acting as a hub to coordinate the activities of all the other centers and as a central analysis laboratory. The United States has four centers, and Canada has one. All equipped with cutting-edge equipment, the centers collaborate continuously with universities as well as scientific and industrial research institutes.

The research and development laboratories also provide support for our Technical Services Division to help provide solutions for even the most complex requests from our clients. Working alongside these centers are our quality-control laboratories, which are present in all the MAPEI Group's production facilities.

PROFESSIONAL SUPPORT NETWORK

Technical Expertise

An in-house Technical Services Call Center responds to customers' telephone inquiries with answers to installation challenges in real time. In addition, MAPEI can offer field support for job startups, product training and on-site problem resolution.

Customer Service Plus

MAPEI's standards for customer service are best in-class. Our leadership includes such service innovations as:

- Customer-friendly, efficient processes
- One-call resolution
- Employee commitment to effective customer dialog

TECHNOLOGY LOGOS INDEX

Since MAPEI's founding in 1937, there has been a passion for every facet of sports. MAPEI entered the professional sports industry in the 1976 Olympic Games in Montreal with the introduction of a novel adhesive system for the installation of running

tracks. Thanks to years of continuous innovation, MAPEI's sport-flooring systems offer cutting-edge solutions to build the most aesthetically pleasing and highest-quality sports facilities.

SCS Global Services' Indoor Advantage Gold certification signifies that select products' VOC emissions have been tested and comply with California Department of Health (CDPH) Standard Method v1.2-2017.

The International Tennis Federation (ITF) classification system rates tennis courts based of their speed of play. A pace rating of three is considered a medium pace court making it an ideal surface for the majority of players.

Mapecoat TNS Line Seal [NA]

Premium, Acrylic, Line Paint Sealant

APPLICATION Transparent sealant for the edges of the masking tape before the application of *Mapecoat TNS Line Tex* line paint. Apply with a roller or brush.

PACKAGING Jug: 1 U.S. gal.

FEATURES

Scan for more information

Mapecoat TNS Line Tex [NA]

Premium, Acrylic Line Paint Fortified with Fine Sand

APPLICATION Use for marking sport courts and urban areas for all *Mapecoat TNS* system surfaces. Apply with a roller or brush.

PACKAGING Jug: 1 U.S. gal.

FEATURES

Scan for more information

Mapecoat TNS Primer EPW

Two-Part, Water-Based Epoxy Primer

APPLICATION Used for indoor and outdoor surfaces to enhance the performance and the adhesion of *Mapecoat TNS* products. Apply in one or more coats depending on the type of substrate, evenly, with a medium- or long-haired roller by spray or rubber squeegee.

PACKAGING Kit: 2 U.S. gals. (7.57 L)

FEATURES
