

UltraCare®

Sealer for Glass Tiles & Shower Doors

MAPEI's *UltraCare* Sealer for Glass Tiles & Shower Doors is specifically designed to keep glass tiles and shower doors cleaner – longer.

This easy-to-use formula uses advanced chemical technology that becomes part of the glass surface, creating a barrier. This causes water to bead and slide off glass surfaces.

Continual use of this product will help repel the buildup of soap scum, calcium, hard water deposits and grime onto glass surfaces – significantly reducing cleaning time and effort.

Features of *UltraCare* Sealer for Glass Tiles & Shower Doors:

- Easy spray-and-wipe application
- Uses transparent hydrophobic barrier technology to help reduce soap scum, calcium, hard water deposits and grime from building up and sticking to glass/tile surfaces
- Keeps glass surfaces clean for longer, significantly reducing cleaning time and effort
- Eliminates the need for harsh acidic and caustic cleaners that may damage glass surfaces over time
- Does not streak or smear
- A 12-oz. (355-mL) bottle covers up to 135 sq. ft. (12.5 m²)
- Low-VOC formula: < 0.75 g per L
