

Architectural Cheat Sheet for *Mapecoat™ TNS*

PICKLEBALL ACRYLIC COATINGS

Why use MAPEI?

MAPEI's commitment to quality is built into everything we do. More than a tagline, we truly promote this belief in our operations and processes. A family-owned company, we are among the world's leading manufacturers of chemical products for the building industry.

- We hold the following ISO certifications:
 - ISO 9001 Quality Management Systems
 - ISO 14001 Environmental Management Systems
 - ISO 45001 Occupational Health and Safety Management Systems

These certifications mean that we operate safely and consistently provide products that meet customer requirements to protect the environment and fulfill regulatory obligations.

- Sustainability and environmental programs: Our products can contribute to green building standards and certification systems, such as LEED and WELL.
- Research and development: Our state-of-the-art Center of Excellence laboratories are located throughout North America and are supported by our global Corporate Research Center in Milan, Italy, ensuring consistency and high product quality around the world.

Why choose Mapecoat TNS pickleball acrylic coatings for your facility?

MAPEI's *Mapecoat TNS* pickleball acrylic coatings provide the most innovative, efficient coatings for your facility, and the system is backed by the industry's best warranty. Attributes of *Mapecoat TNS* pickleball acrylic products include the following:

- Independent third-party testing:
 - 2,000-hour UV exposure test
 - Force reduction certification
- ASTM testing
 - Tabor abrasion (ASTM D4060)
 - Tensile strength and elongation (ASTM D2370)
- Wide selection of colors including custom colors and designs, enabled by ColorMap™ color-matching technology
- Factory-textured premium pickleball acrylic coating that only requires mixing with water
- Superior elongation and flexibility
- Environmentally friendly ingredients
- SCS Indoor Advantage Gold certification for indoor air quality

MAPEI also offers a full line of concrete preparation, concrete restoration and admixture products to prepare substrates for *Mapecoat TNS* installations as well as a full line of turf-installation products to complement your sports courts.
