

Phnikaa University HANOI

The campus of Phnikaa University extends over an area of 14 hectares. Since 2017 the university has been actively looking for the best talents in Vietnam with the aim of training them and developing their skills, particularly in subjects related to science and technology. The project for the construction of the campus included the adoption of eco-sustainable construction methods, the planting of numerous gardens and

the installation of the most up-to-date didactic equipment. The campus includes 12 teaching blocks, student dorms, green areas and sports facilities.

Mapei Vietnam supplied solutions for installing ceramic and stone, such as ADESILEX P9, cementitious adhesive with extended open time and no vertical slip, and KERA-COLOR SF super-fine, cementitious grout for joints up to 4 mm wide.
