

FROM HOSPITALS TO  
 FACTORIES AND FROM OFFICES  
 TO CLINICS: A BRIEF OVERVIEW  
 OF PROJECTS RECENTLY  
 COMPLETED IN SWITZERLAND  
 USING MAPEI PRODUCTS

## BUGNON CONSTRUCTION SA HEADQUARTERS - EPAGNY

For their tenth anniversary, the Swiss construction company Bugnon Construction SA decided to treat themselves to a gift by building new offices and a new warehouse.

The company's head office is in the Gruyère district and was conceived to act as a calling card for their clients: an intention that proved successful.

The various protruding floors running in different directions serve a practical function but, at the same time, demonstrate the technical expertise of the company.

Mapei played its part in the construction of the building by supplying waterproofing products (IDROSTOP SOFT and PLASTIMUL FIBER PLUS\*), admixtures for concrete (DYNAMON SR 912-CH\*, ANTIGELO S and MAPECURE E30), products for preparing substrates (PRIMER SN, QUARTZ 0.5, ECO PRIM GRIP and PLANIPATCH) and solutions to make the cementitious floors (ULTRATOP LOFT, ULTRATOP COLOR PASTE, MAPEFLOOR FINISH 52W and MAPEFLOOR FINISH 58 W).

**TECHNICAL DATA**  
**Period of construction:** 2015-2017  
**Period of the Mapei intervention:** 2015- 2017  
**Client and main contractor:** Bugnon Construction SA
