

## KUBUS CLINIC BADEN

The Kubus Clinic started out as a day-hospital to take some of the pressure off the nearby regional hospital in Baden by treating the high number of out-patients requiring check-ups, dialysis and examinations in the nephrology, oncology, haematology and radio-oncology departments.

Mapei played a part in the construction of this both imposing and original structure by supplying flooring products for a total surface area of 4,000 m<sup>2</sup>. To meet the specific requirements of a hospital struc-

ture, the materials used had to be certified, sustainable and have very low emission level of volatile organic compounds and, because of the tight schedule, they also had to be quick to apply.

Going into detail, Mapei Suisse supplied a number of high quality products to prepare the substrates (PRIMER MF EC PLUS, QUARTZ 0.5, QUARTZ 1.2, ULTRAPLAN ECO PLUS and PLANIPATCH), an operation that proved to be extremely important in order to properly install the resilient floorings, which were bonded with the adhesives ULTRABOND ECO V4 SP FIBER and ULTRABOND ECO V4 SP CONDUCTIVE.

### TECHNICAL DATA

**Period of construction:** 2014-2016

**Period of the Mapei intervention:** December 2015 – November 2016

**Client:** Kantonsspital Baden AG

**Design:** Confirm AG

### Installation company:

MüPa AG

**Mapei coordinator:** Jens Stenzel, Mapei Suisse

### MAPEI PRODUCTS

Primer MF EC Plus, Quartz 0.5, Quartz 1.2, Ultraplan Eco Plus, Planipatch, Ultrabond Eco V4 SP Fiber, Ultrabond Eco V4 SP

Conductive, Ultrabond MS Rapid, Mapestrip Perimeter 50\*

\*This product is manufactured and distributed on the Swiss market by Mapei Suisse
